QRTs – Taxonomy 2.5.0

Brexit Comment

“Although there were no new changes to DPM dictionary nor Annotated templates because of Brexit (the changes introduced in 2.4.0 are sufficient), it should be clarified how the 2.5.0 taxonomy release shall be used in this regard. Importantly, **up to the reference date 31.12.2020** the newly added domain members must not be used because UK will be still **treated as a part of EU**

.....

There are only two exceptions that do apply for filers **finishing the accounting year in 2021**(e.g. end of February)”

Solvency II 2020 Review

Solvency II had big plans for 2020...

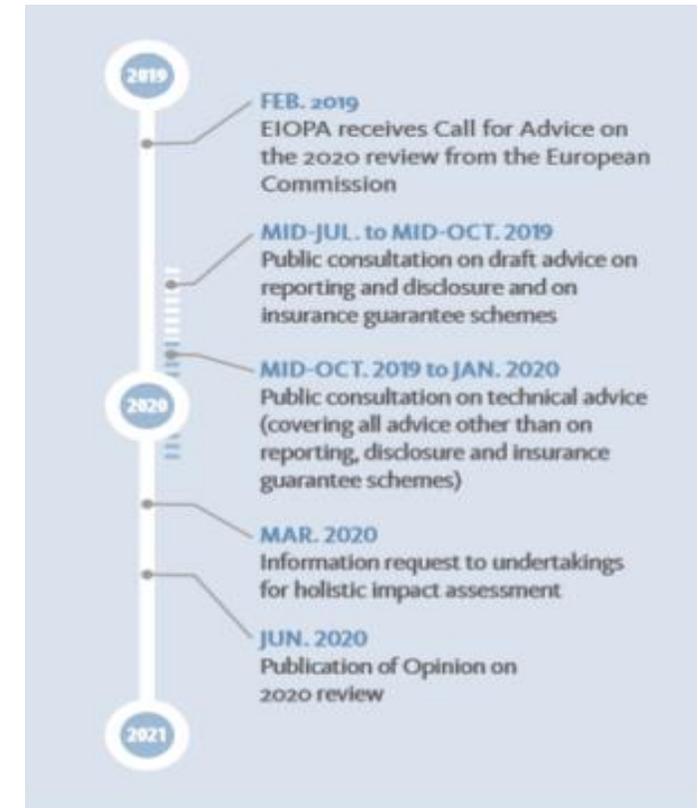

Solvency II Directive requires that, by 1 January 2021, the Commission shall review:

LTG measures and equity risk measures

Methods, assumptions & parameters used in calculating standard formula SCR

Calculation of the MCR

Group supervision & capital management

COVID-19 Impact

EIOPA issued some extensions and additional requests as a result of the COVID-19 pandemic:

- The deadline of the information request for the holistic impact assessment of the 2020 Solvency II Review was extended by two months, to 1 June 2020
- A supplementary information request was issued to a sub-sample of the previous request participants. This used a reference date of 30 June 2020 and was to be completed from July to mid-September 2020
- EIOPA's advice to the European Commission was delayed from end June 2020 to end December:
“EIOPA, in close coordination with the European Commission, has decided to deliver its advice to the European Commission at end December 2020, to take into account the importance of assessing the impact of the current Covid-19 situation on the Solvency II Review.”

What will 2021 hold in store for Solvency II

- Final Advice delayed to December 2020
 - Expect to see new proposed regulatory text in June / July 2021 at the earliest, possibly Q3 2021
- Gabriel Bernardino: *“the big fundamental elements that we wanted to achieve with the review will continue to be the same”*
- So this is the new timeline for the commission’s proposed text. But after that, how long will it take to be agreed by the legislators and then transposed into national law?
 - Implementing any changes may take several years because political agreement will take time – could be 2023/24.
 - Gabriel Bernardino: *“If we are still within this extremely low interest rate environment, we will have a mechanism to dampen and to mitigate that”*

Regulations for pre-emptive recovery planning for (re)insurers

CP131 - Regulations for pre-emptive recovery planning for (re)insurers

Overview

CP131 - Contents of a recovery plan

“Pre-emptive recovery planning will inform strategic decision-making processes during a crisis - developing a strategy during an extreme stress can limit the scope of the planning, the detail of the review, and the efficacy of decision making.”

Draft Regulations

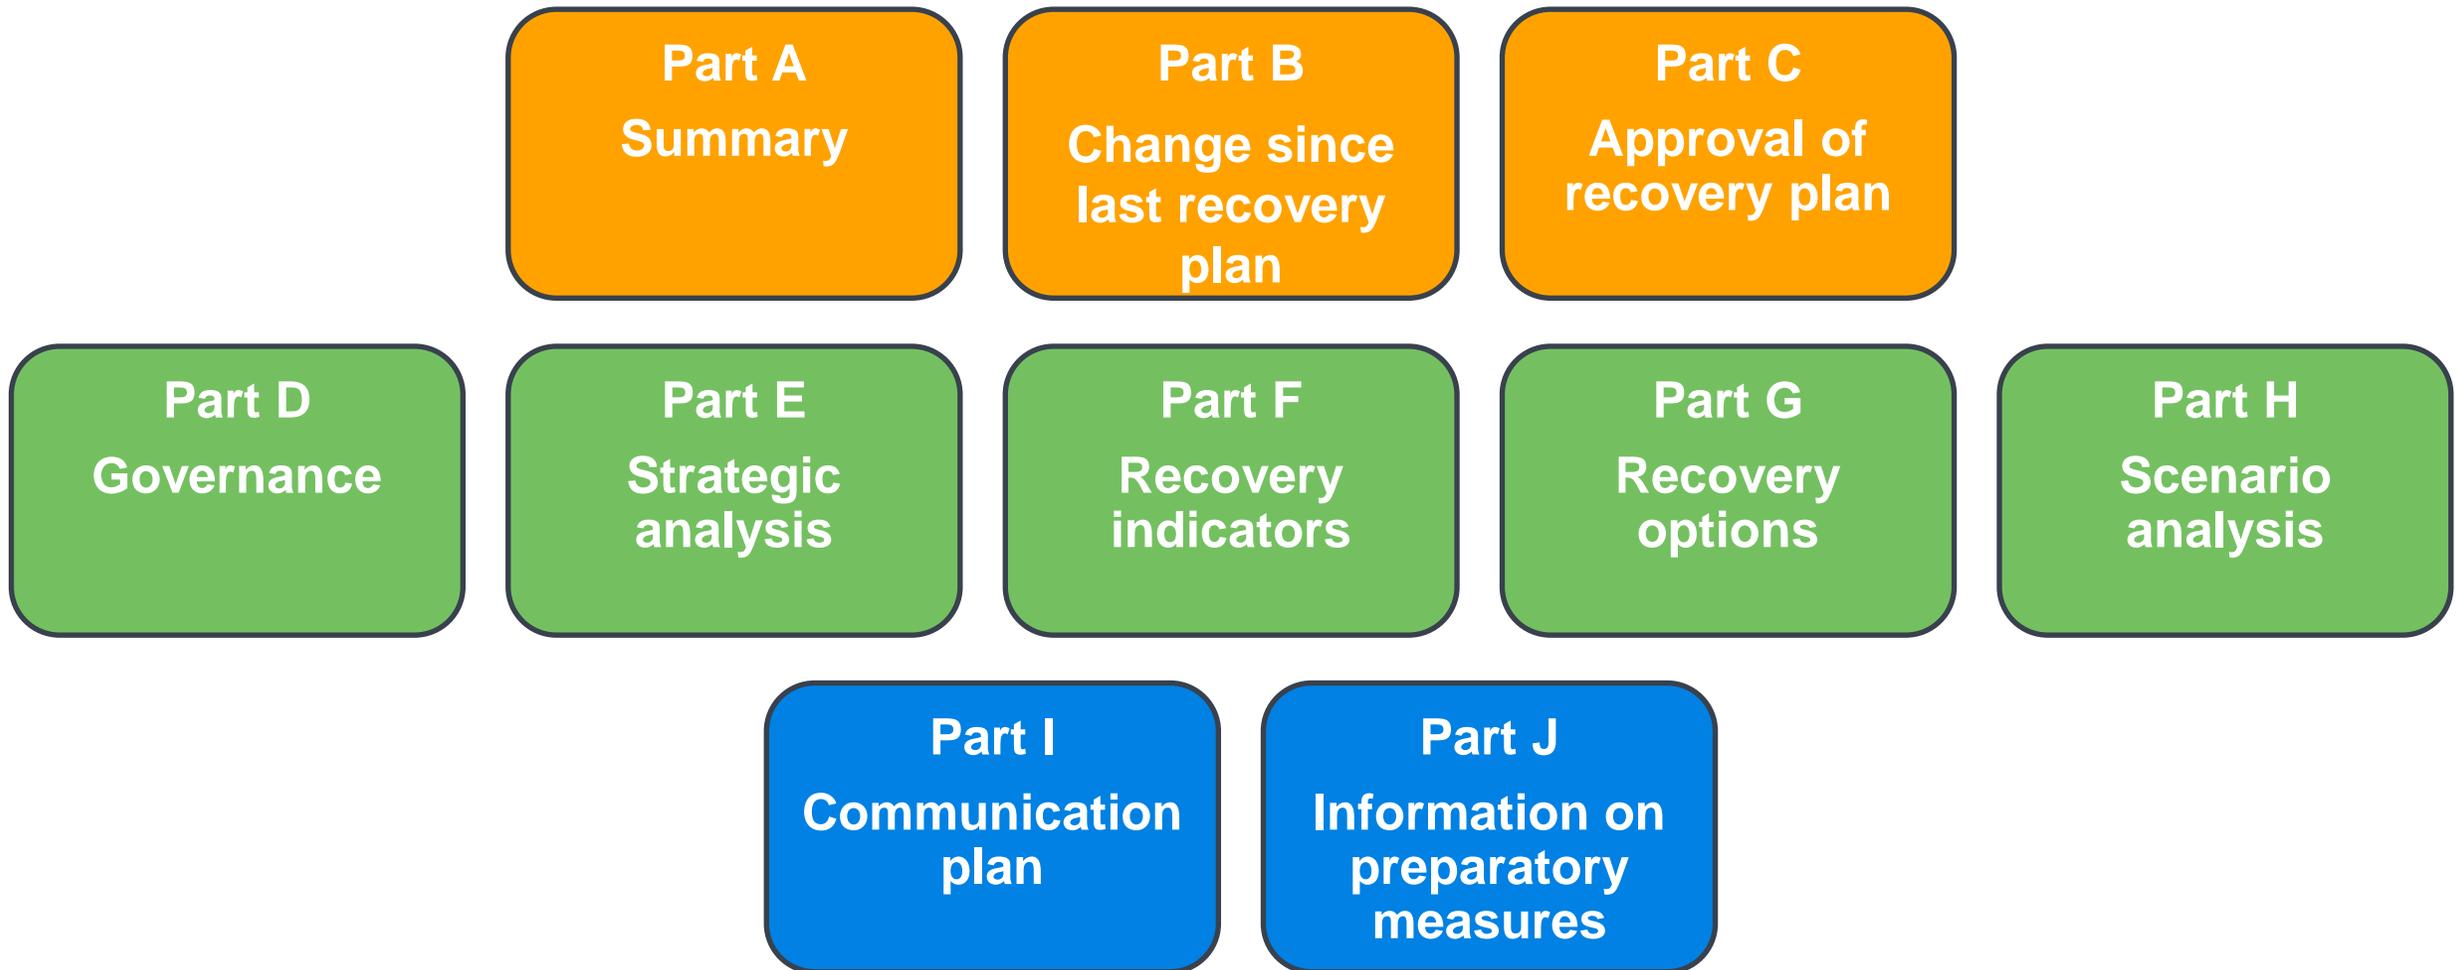

- Review at least annually and on any material organisational or financial change
- Board assessed and approved
- Confirmation of internal reviews
- Monitoring of recovery indicators
- Confirmation that the trigger framework can operate reliably under financial stress
- Detailed requirements on plan contents:
 - ✓ Plan governance
 - ✓ Strategic analysis
 - ✓ Recovery indicators
 - ✓ Recovery options
 - ✓ Scenario analysis
 - ✓ Communication plan

Draft Guidelines

- Sets out links with recovery planning, with the insurer's SoG, ERM framework and ORSA
- Allows for proportionality – nature and scale of insurer but also its systemic importance
- Insurers shouldn't rely on a group recovery plan
- Breakdown of strategic analysis into core business lines, key services, and critical functions
- Indicator framework – capital, liquidity, profitability, reserving, market-based, macroeconomic
- Impact and feasibility assessments for recovery options

CP131 - Proposed layout of the recovery plan

Proposed format of recovery plan

Conclusion

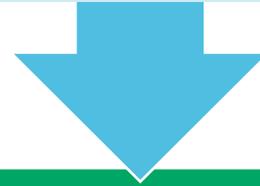

In Summary

What to know for Year-End 2020

Minor changes to EIOPA QRTs

No changes to EIOPA log files

No changes to the CBI NSTs

What to expect in future

Level 3 Guidelines (June 2021)

Annual changes expected to the QRTs

Delegated Regulations will see substantial changes again following the 2020 review

Lots of changes to monitor....
