

YUNZI XIA

Senior Consultant

yunzi.xia@milliman.com

Current Responsibility

As a senior consultant, Yunzi Xia is responsible for supporting Milliman clients on various projects. Her areas of focus include, among others, automation of actuarial processes, Solvency II, programming and calculations with Prophet, data analytics with R, validation and optimization of internal models, and IFRS 17.

Professional Work Experience

Yunzi worked on different projects in life and health insurance in the German market, particularly on the following:

- Supporting a European multinational in producing first-time reliable IFRS 17 results for a German subsidiary. The scope of this work included reinsurance and health business.
- Developing internal models: making code adjustments within the health workspace.

Education

Bachelor's degree, Mathematics; Diploma Pedagogic Studies for Mathematics and Physics at Julius-Maximilians-University of Würzburg
